

Guest List Planning

Simply print off this sheet and cut between cards until you have the number needed. Keep cards in alphabetical order for ease in finding guests by name.

The B and G determine if the guest is invited by the bride or the groom. The Fnd and Fly determine if the guest is a family member or friend. The #A is number of adults that will attend, and #C is the number of children that will attend. Put a \ or X through the #A__ for those guests who cannot attend.
